## Thorny devil activity sheet

Pitjantjatjara name: *Ngiyari*  
English name: Thorny devil

### *Ngiyari* facts:

- *Ngiyari* has yellow, orange, brown and white markings and the thorny devil can change its colour according to the amount of sunlight and its surroundings.
- *Ngiyari* are less than 20 cm long and are a slow-moving creature that feeds solely on ants.
- The hump, which looks a bit like a second head, is probably a defence mechanism used to distract pecking predators such as birds.

Can you help *Ngiyari* find the way to the ants?
